

REDDITCH ELECTRO-PLATING CO. LTD

QUALITY POLICY STATEMENT

The Company's policy is to maintain a reputation in the market place as a dependable, reliable metal finisher. Also to continually improve business processes for producing products to meet Customers' ever-increasing demands for quality, cost, on-time delivery, and service.

To effectively achieve this policy and meet current and future business aims and objectives the Company's Management are committed to implementing and developing formal Quality Management Systems complying with the requirements of the International Standard BS EN ISO 9001:2008. This will form the cornerstone for the development of the business' operational disciplines.

The Management will ensure adequately equipped and trained staff are available to achieve the Policy and sustain the strategy. Also providing a safe and healthy environment for all employees who are recognised as the business' most valuable asset.

The employee Team is jointly responsible for routine co-ordination, monitoring, continuous improvement and development of the Business Management Systems.
